

CARR - 706

314 WEST MAIN STREET

early 20th century

Westminster

private

314 West Main Street is an early twentieth century house built in the American foursquare style that was popular during that period. Its basic foursquare characteristics are its square, box-like proportions, hipped roof, and wide, full-length front porch. It was remodeled by the application of abestos siding in the mid-twentieth century and more recently by application of a one-story brick facade under the front porch.
